COUNTY sustainability. opportunity. community.

Envisioning Our Future: Workshop and Open Houses

Creating a community vision is the first step in the La Plata County comprehensive planning process. The visioning process includes 7 public meetings to help residents identify their shared values and aspirations for La Plata County. Visioning will answer:

- What do we treasure about La Plata County that you don't want to change?
- What concerns do we have about living in La Plata County and for the future?
- What would we like to see change/different in La Plata County in the future?
- What do we want La Plata County to be like in twenty years?

The full day visioning workshop will be the most interactive and intensive of all the visioning meetings with both small and large group discussion. Lunch and childcare will be provided for this event. While you may just show up, it would make the event more successful if you would please confirm your attendance. For the open house, you may drop in at your convenience, talk with the project team, and respond to the visioning questions.
